Multidiameter™ by Roxtec

Roxtec ensures a perfect fit, regardless of the dimension of the cable or pipe. Our unique solution simplifies design, installation and inspection. Avoid surprises onsite due to late changes and reduce the number of inventory items. The spare modules are always ready for upgrades and to handle high cable and pipe density.

Roxtec Multidiameter™ is an innovation for flexibility based on removable layers.

It makes the mechanical system adaptable to cables and pipes of different sizes.

With only a few parts you get a strong reliable barrier securing operational performance.

Flexible solutions for your safety

This overview presents a selection of our standard sealing solutions. You find our complete range of innovative safety products and components as well as related information on [roxtec.com](https://www.roxtec.com).

We can also help you cover special and application specific sealing requirements by creating, testing and supplying tailor-made solutions.
