Blind Cover "**GK BD"** for **GK Packing System** Type "**SPK**" are used when no cables are installed in the packing sleeve. The **GK BD** can then be used to close off `superfluous 'sleeves without work involving heat. However, if cables or pipes need to be routed through subsequently, the **GK BD** is readily removed again, and the frame (120mm inside width and 60mm depth) can be used as usual with the **GK Packing System**. **GK BD** are approved for „A"class steel/ aluminum divisions (bulk-head and deck). Approved for installation in divisions without gas and water tightness. Approved for Type SPK: -F; -S30; -S50; -F-R. **GK BD** can be supplied in a steel version. Can be installed from one side only. Detailed information about application and use according to actual certification.

| Part No°	Description
GK000000260792	GK Blind Cover Type SPK size 4
GK000000260800	GK Blind Cover Type SPK size 6
GK000000260801	GK Blind Cover Type SPK size 8

Beispiel/ Example
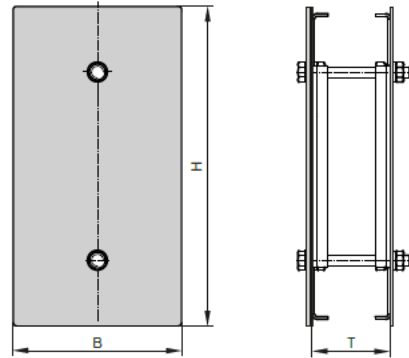

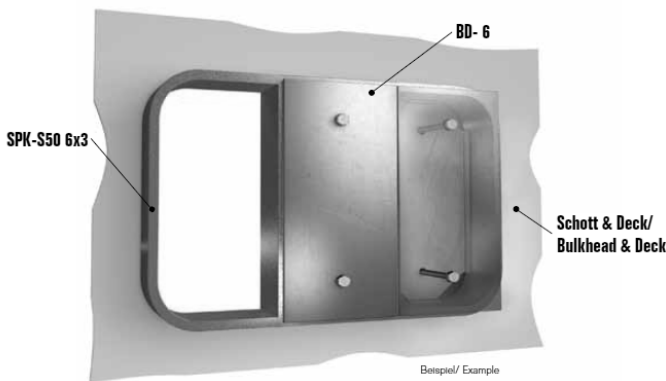

BD/ BD	Maße/ Dimensions			
	B	H	T	m [kg]
Blinddeckel Gr 4	128	183	60	1,4
Blinddeckel Gr 6	128	243	60	1,8
Blinddeckel Gr 8	128	303	60	2,3

Montage- und Isolier-Anweisungen sind zu befolgen, ggf. Projekt-Vorgaben beachten!

Please follow insulation instructions and ensure compliance with project specifications as necessary.
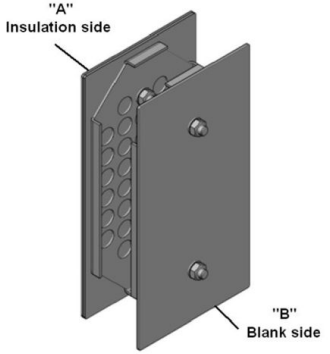

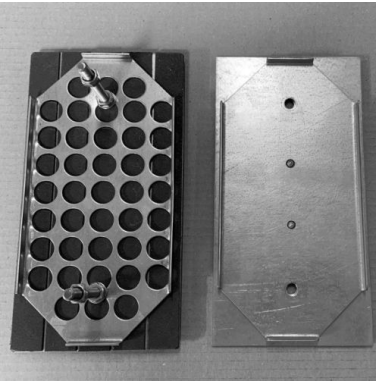

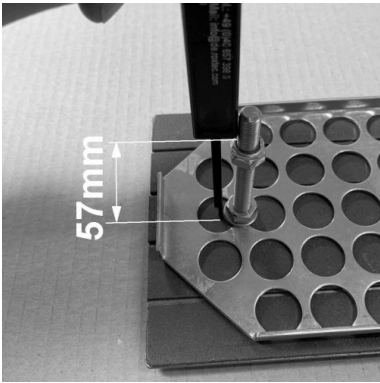

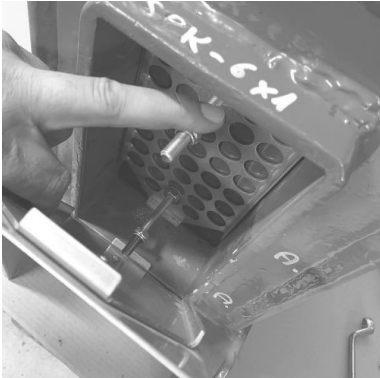

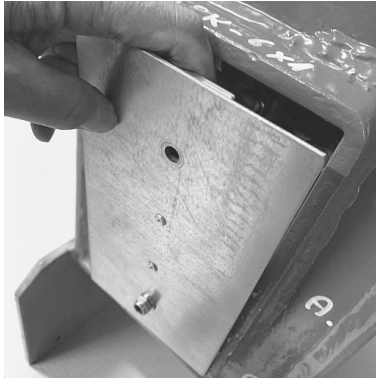

Insulation instruction A-0 and A-60
*Steel division and aluminum (only deck)*

Aluminum division

Bulkhead / Deck

Bulkhead

Note :
T1 = Insulation according to shipyard spec.
T2 = A-60 class insulation

1. GK Blind Cover have a side "A" and "B", place side "A" on insulation side	**2.** Dismount the GK Blind Cover before installation.	**3.** The distance between the nuts must be 57mm (Frame depth T=60mm).
4. If needed, adjust the distance to 57mm.	**5.** The side "A" cover is inserted diagonally through the GK packing frame …	**6.** …and is placed flush with the back side of the transit. Hold the cover by hand…
7. …and add the side "B" cover by using the second bold and secure cover with a nut.	**8.** Now the second nut can be mounted, check position of the GK Blind Cover.	**9.** Tighten the nuts evenly until the cover side "A" & "B" are flush to frame.

DISCLAIMER (For GK Packing System)
